

Surface Mount PIN Photodiode

OPR5910/T, OPR5913

Features:

- Surface mountable
- High temperature operation
- Square active area (OPR5910)
- Large area photodiode (OPR5913)
- 880 nm peak responsivity offers maximum coupling with OPTEK's GaAIAs LEDs (OPR5910)

Description:

Each OPR5910 and OPR5913 device is a silicon PIN photodiode enclosed in a compact polyamide chip carrier and is designed for open air communications and ambient light detection circuits.

The custom opaque package shields the photodiodes from stray light and can withstand multiple exposures to the most demanding soldering conditions, while the wraparound gold-plated solder pads offer exceptional storage and wetting characteristics.

See Application Bulletin 237 for Handling Instructions.

Applications:

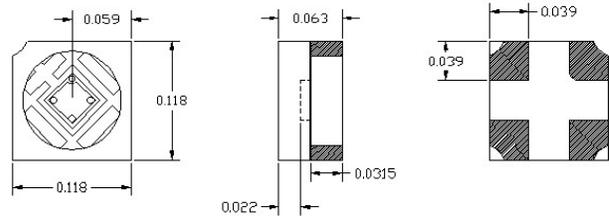

- Encoder applications
- Control applications

Warning: Front Window is pressure sensitive. Do not apply pressure or high vacuum to window.
