

Cat6a 10G Certified Pre-Terminated Copper Trunk Assembly (6x RJ45 F/F), Blue, 10 ft. (3.05 m)

MODEL NUMBER: **N261-010-6FF-BL**

Factory-terminated copper trunk assembly combines 6 certified Cat6a cables to save time, space and money. Ideal for data centers and other areas where quick installation and consistent network connection are important.

Description

The N261-010-6FF-BL Augmented Cat6/Cat6a Pre-Terminated Copper Trunk Bundle (F/F) makes installation a breeze and saves you time, space and money. All termination, bundling and testing is done at the factory, so almost anyone can do the installation in your data center in less time. Six certified and channel-tested Cat6a cables are bundled together, which cuts down on cable clutter in your cabinet. Both ends feature an unshielded female RJ45 keystone jack.

Designed for easy patching in switches and patch panels, this 10-ft. (3.05 m) assembly is constructed using 23 AWG solid conductor wire with a blue CMR-rated PVC jacket. Black mesh tubing keeps the cable neat and protects against fraying and damage. The 18-inch breakout legs are labeled on the ends for quick identification. System components meet or exceed ANSI/TIA-568-C.2 category requirements for performance. Backward compatible with Cat6 and Cat5e installations.
