

# Surface Mount NPN/PNP Complementary Transistor

## 2N4854U (TX, TXV)

### Features:

- Ceramic 6 pin surface mount package
- Small package to minimize circuit board area
- Hermetically sealed
- Processed per MIL-PRF-19500/421

### Description:

The 2N4854U (TX, TXV) are hermetically sealed, ceramic surface mount complementary NPN/PNP transistor pair. The “U” suffix denotes the six terminal (C-6) leadless chip carrier package option. The miniature six pin ceramic package is ideal for designs where board space and device weight are important design considerations.

Typical screening and lot acceptance tests are per MIL-PRF-19500/421. The burn-in condition is  $V_{CB} = 30\text{ V}$ ,  $P_D = 300\text{ mW}$  each transistor,  $T_A = 25^\circ\text{C}$ . Refer to MIL-PRF-19500/421 for complete requirements.

When ordering parts without processing, do not use the TX or TXV suffix.

### Applications:

- General switching
- Amplification
- Signal processing
- Radio transmission
- Logic gates
