3M™ Peltor™ H505B Welding Earmuff

PELTOR™

The Sound Solution

Smart Products
For Tough Jobs

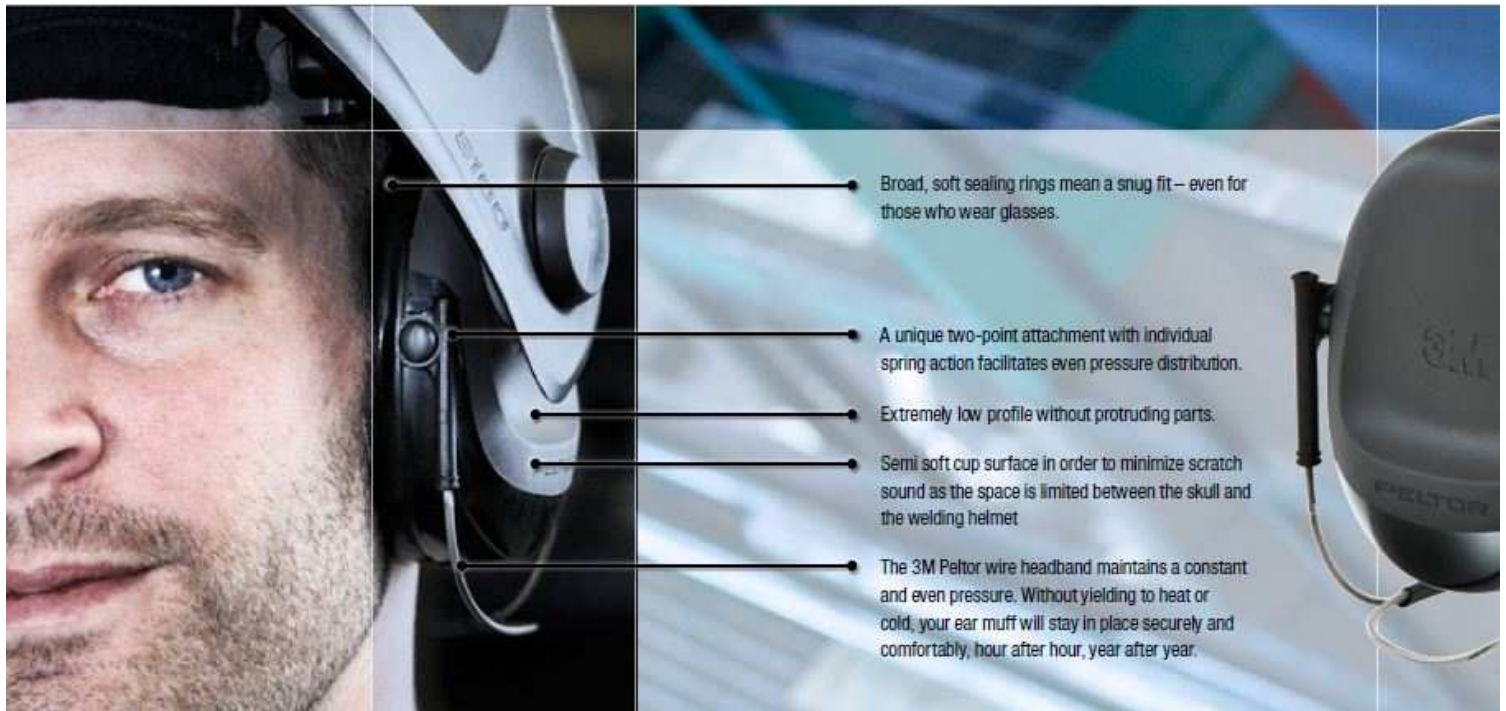

3M™ Peltor™ Welding Helmet Earmuff

The first earmuff specially designed for welding helmets! The new 3M Peltor Welding earmuff is designed to be worn primarily with 3M welding helmets. The 3M Peltor Welding Earmuff provides moderate attenuation from noise arising from welding, cutting or grinding and is slim enough to fit under a welding helmet

3M

3M™ Peltor™ H505B Welding Earmuff

3M™ Peltor™ H505B Welding Earmuff

- Designed to fit under welding helmets, particularly under the 3M™ Speedglas™ 9100
- Protects against hazardous noise levels but still allows you to hear warning sounds
- Attenuation value SLC 80 22dB (Class 4)
- Low Profile and light weight
- Comfortable sealing rings
- Hygienic kit available
