

MANAGED ETHERNET SWITCHES

Selection Guide

B+B SMARTWORX

Powered by

ADVANTECH

Intelligence at the Network Edge

+ capabilities and sophistication at the top tiers of your network

why managed switches are important to your network

- Required in mission critical network environment
- Give you better control over LAN(Local Area Network) traffic and offer other advanced features to control the traffic:

+ FAST DEPLOYMENT

Auto synchronization function of both firmware and configuration settings to make middle/large-scale deployment of multiple switches fast and easy.

+ REAL-TIME REDUNDANCY AND RESILIENCE

It refers to a back up data path less than 20ms to network traffic to safeguard a network in case a connection or cable fails

+ REMOTE MANAGEMENT

Mission critical networks demand remote configuration, troubleshooting, diagnostic, monitoring/traps, reboot, and re-imaging of OS

+ ACCOUNT PRIVILEGE AND SECURITY

Limiting network access to trusted devices prevents users from setting up unauthorized sub-network. Also limit management plane access via user authentication such as RADIUS, LDAP and others.

+ SUPPORT MULTIPLE VLAN CONFIGURATION

VLANs allow a switch to logically group devices together to isolate traffic between these groups even when the traffic is passing over the same physical switch

+ QOS (THE QUALITY OF SERVICE)

The managed switches are able to prioritize one type of traffic over another allowing more bandwidth to be allocated through the network by assigning a higher priority to the critical traffic.

+ choose the best series for your managed ethernet switches

SE400 Series

- PROFINET conformance class B certified and EtherNet/IP™ ODVA® certified
- Ideal for a PROFINET RT or EtherNet/IP™ environment
- Modbus TCP available
- Supports MRP(Media Redundancy Protocol) feature according to IEC 62439
- Default IGMP Snooping and SNMP enabled
- UL508, UL C1D2, ATEX Zone 2, IECEx certified

Application

- Automotive
- Machine Automation
- Food & Beverage
- Oil & Gas

Speed	10/100Mbps & Gigabit
Port count	8, 10, 16, 18
Fiber Option	Up to 2 fiber uplinks
Power Over Ethernet	-
Operating Temp	-10~60°C -40~75°C
Dual Power Input	DC: 12V-48V
Certification	UL508 Class I, Division 2 ATEX Zone 2
Warranty	Limited Lifetime

EtherNet/IP™

SE500 Series full L2 managed features

- Up to 28 Gigabit ports for high bandwidth connection
- Sophisticated network security mechanism protection
- Leading IXM™ function ensure RISK-FREE fast deployment
- Smart PoE/PoE+ function management & setting
- UL508, NEMA TS2, EN50121-4 certified

WebAccess/NMS

Application	Mission Critical Application - Intelligent Transportation - Security & Video Surveillance - Energy (Wind, Solar, Metering)
Speed	10/100Mbps & Gigabit
Port count	6, 8, 10, 12, 20, 28
Fiber Option	Up to 20 fiber uplinks
Power Over Ethernet	PoE/PoE+
Operating Temp	-40~75°C
Dual Power Input	DC: 12V-48V DC: 24V-48V*(PoE/PoE+ models)
Certification	UL508 NEMA TS2 EN50121-4
Warranty	Limited Lifetime

SE600 Series NAT & static routing feature

- NAT feature to utilize IP addresses an organization needs
- Static Routing feature to interconnect multiple LAN segments
- Sophisticated network security mechanism protection
- Leading IXM™ function ensure RISK-FREE fast deployment
- UL508, NEMA TS2, EN50121-4 certified

Application	- Automotive - Machine Automation - Food & Beverage - Oil & Gas
Speed	Gigabit
Port count	12, 28
Fiber Option	Up to 4 fiber uplinks
Power Over Ethernet	-
Operating Temp	-40~75°C
Dual Power Input	DC: 12V-48V
Certification	UL508 NEMA TS2 EN50121-4
Warranty	Limited Lifetime

SE700 Series full L3 managed features

- Full Layer 3 features to support IP routing in the scalable networks
- Up to 4 x 10G ports for high bandwidth uplink connection
- Sophisticated network security mechanism protection
- Leading IXM™ function ensure RISK-FREE fast deployment
- Supports WebAccess/NMS for easy, visualized industrial network management

Application	Mission Critical Application - Intelligent Transportation - Security & Video Surveillance - Energy (Wind, Solar, Metering)
Speed	Gigabit & 10G
Port count	28
Fiber Option	Up to 4 fiber uplinks

+ CONNECTED PLANET ENABLING SOLUTIONS

Our lives are networked like never before, supported by the machine and information networks working to gather, manage and transform operational data into better living.

We are B+B SmartWorx, powered by Advantech. We enable solutions that add new layers of sophistication to existing machine data networks and provide dramatic new capabilities that ultimately improve a network's efficiency and productivity. Our specialty is advancing secure connectivity at the Network Edge through the use of intelligent wireless and wired communication technologies.

Explore your opportunity with us. Working together to enable a connected planet.
