

About Item

1. **Rotary knob adjustment:** The 5 Core volume control for the speaker provides a convenient multi-position rotary knob for adjusting the volume of whole-house audio sources. With independent speaker volume control in different areas of your home or office, this light-touch rotary knob style adjustment makes it easy to manage your audio system.
2. **Impedance protection:** The volume control VC 003's impedance protection feature helps ensure a stable ohm load going back to the amp or receiver when using the parallel connection. This protects your equipment from overheating and damage by matching impedance.
3. **Four speaker volume control:** With the 5 Core speaker selector's wall plate volume control, you can add up to four pairs of speakers throughout your home and control them all from one location. This volume control for the speaker maintains the full hi-fi audio frequency response without any low-frequency roll-off.
4. **100Hz-18KHz frequency response:** Enjoy high-fidelity sound reproduction with the 5 Core wall mount volume control's wide frequency response range of 100Hz-18KHz. This in-wall volume control allows for rich-quality sound delivery in the same room as your speaker.
5. **In-wall/wall plate:** The whole house volume control is a universal standard decorative flush in-wall or wall mount installation finishing plate for speaker and stereo control. It includes mounting essential for easy and convenient installation.

Product Description

Experience high-quality audio like never before with the VC 003 in-wall volume control for speakers from 5 Core! Whether you're setting up an audio system for your home, office, or business, the 5 Core volume control got you covered.
