

TouchPanel Connector Board

PID: MIKROE-322

The **TouchPanel Connector Board** offers an effective and low-cost solution for connecting your prototype device to a touch panel.

Specifications

Applications	Board is used to secure a touch screen ribbon cable mounted on the prototype your device
On-board modules	Plastic touch screen cable clamp
Key Features	Connector for 4-wire resistive touch panel flat cables
Interface	Analog
Compatibility	Breadboard (PROTO)
Input Voltage	3.3V or 5V

Mikroe produces entire development toolchains for all major microcontroller architectures.

Committed to excellency, we are dedicated to helping engineers bring the project development up to speed and achieve outstanding results.

ISO 27001: 2013 certification of informational security management system.
ISO 14001: 2015 certification of environmental management system.
OHSAS 18001: 2008 certification of occupational health and safety management system.

ISO 9001: 2015 certification of quality management system (QMS).
