

## Vividia CX-6010i Joystick Articulating Borescope

The **Vividia CX-6010i Flexible Smartphone Joystick Articulating Inspection Camera Borescope** has a 6mm (0.236") diameter and 1 meter flexible probe length. The probe is covered by a metal-mesh tube for durability and IP67 waterproofing & dust resistance. The CX-6010i has bright LED lights, joystick pivoting and can be used to look into dark places as a diagnostical inspection camera. The camera head can be steered with the joystick to all directions and all angles. The CX-6010i can be directly connected to an iPhone, iPad or Android device through a USB cable. With the free app "USee" on the Google Play Store & Apple App Store, one can seamlessly record picture and video directly to their device. With a waterproof flexible insertion tube and probe camera, the Vividia CX-6010i borescope is suitable for many applications. These include but are not limited to looking into engine cylinders, inside airplane wings, behind instrumental panels and inside brake systems. The Vividia CX-6010i is a fantastic diagnostic inspection camera for auto mechanics and technicians.

### CX-6010i Tech Specs:

Model: CX-6010i  
 Camera head diameter: 0.236" / 6.0mm  
 Camera head bending length: ~ 35mm / 1.38"  
 Camera sensor resolution: CMOS, 1280x720  
 Compatible systems: iOS 9.0 and above, Android OS 10 above  
 Focus range: 10mm / 0.4" to infinity  
 FOV: 100 degree  
 LED lights: 6 white LED lights; 4 levels brightness  
 Probe length: 1m / 3.3 ft.  
 Probe tube material: Wear-resistant metal mesh  
 Articulation type and angles: Joystick 360 all-around, >180 degree  
 Waterproof (probe only): Waterproof IP67  
 Output: USB-A out  
 Battery built-in: Rechargeable lithium, 2600 mAh. Replaceable  
 Working time: >3h after full charge  
 Dimension (without stand): 195 x 57 x 10 mm  
 Weight (without stand): 0.3 kg / 0.66 lbs  
 Special features: Auto off
