

LITE Mounting Series

Optimized Room Scheduling for iPad

Boost workplace efficiency and streamline conference room bookings with the LITE Mounting series. Seamlessly integrate this solution into your office for sophisticated display of room scheduling software on an iPad, ensuring both security and accessibility.

Key Features

Room Scheduling Simplified:

Supports Apple and Android devices for easy access to meeting details and room reservations.

Plug In and Go:

Integration with Office 365 and Google Workspace calendar systems.

See Space, Save Time:

Enhances productivity for distributed teams by ensuring optimal support for hybrid workspaces.

Intuitive to Use:

The interface is user-friendly for efficient operation.

Easy and Fast Install:

Purpose-built scheduling displays that are easy to install on mullions, walls, or glass.

Next-Level Peace of Mind:

Extended warranty options, offering up to 3 years of protection against defects.

Mounting Configurations

The LITE Mounting series provides purpose-built tablet displays for enterprise space scheduling, designed for iPads on **walls**, **doors**, and **glass**. It aims to offer a secure room management solution for diverse modern workplaces.
