MT12-SQ-200-A, No Scale

Ruland Hollow Square Tube, OD 10mm, ID 7mm, L 200mm, Aluminum

Description

Ruland MT12-SQ-200-A is a hollow square tube with a 10mm outer diameter, 7mm inner diameter, and 200mm overall length. It is designed to fit with Ruland clamp connectors, swivel components, and mounting bases that begin with MT12. MT12-SQ-200-A is made of aluminum for reduced weight when compared to stainless steel round tubes. It is used to support components for mounting sensors, screens, reflectors, plexiglass machine guards, and other industrial components. MT12-SQ-200-A is a more cost effective option than equivalently sized stainless steel tubes. This tube is hollow for reduced weight and to help protect wires from components such as cords and screens from being damaged. When combined with MT12-SQTUBECAP-P the user can drill in the tube cap to reduce cords exposure to the operating environment for safety. MT12-SQ-200-A is precision ground to help reduce surface imperfections. It is manufactured by Otto Ganter, inventoried by Ruland, and RoHS3 compliant.

Product Specifications

Square Inner Diameter ID	7 mm	**Square Outer Diameter OD**	10 mm
Overall Length L1	200 mm	**Fits With Clamps**	MT12
Weight (lbs)	0.056900	**Material Specification**	Aluminum
Manufacturer	JW Winco/ Otto Ganter	**UPC**	634529231111
Country of Origin	Germany	**Tariff Code**	7609.00.0000
UNSPC	31162908
