MT12-ROD-100-SS, No Scale

Ruland Hollow Round Tube, OD 12mm, ID 9mm, L 100mm, Stainless Steel

Description

Ruland MT12-ROD-100-SS is a solid round tube with a 12mm outside diameter, 9mm inside diameter, and 100mm overall length. It is designed to fit with Ruland clamp connectors, swivel components, and mounting bases that begin with MT12. MT12-ROD-100-SS is made of 304 stainless steel for high corrosion resistance. It is used to support components for mounting sensors, screens, reflectors, plexiglass machine guards, and other industrial components. MT12-ROD-100-SS is hollow for reduced weight and to help protect wires from components such as cords and screens from being damaged. When combined with MT12-RTUBECAP-P tube caps the user can drill in the tube cap to reduce cords exposure to the operating environment for safety. It is precision ground to help reduce surface imperfections. MT12-ROD-100-SS is manufactured by Otto Ganter, inventoried by Ruland, and RoHS3 compliant.
