KS60-M12-SS

Ruland KS60-M12-SS, Star Knob, 60mm Knob Diameter, M12 tapped hole, Stainless Steel

Description

Ruland KS60-M12-SS is a star knob with a 60 mm knob diameter, and M12 tapped hole. This star knob is used to quickly adjust conveyor guide rails, screens, sensors, and other industrial components without tools. It mates to hardware with M12 threading. The knob and tapped hole are made of AISI CF8 stainless steel with a shot blasted finish. This gives KS60-M12-SS good corrosion resistance capabilities for use in food, packaging, and medical applications. The grooves of the star-shaped knob offer an ergonomical grip, making it easy to tighten and loosen as needed. It is ideal for confined spaces due to it's small dimensions and tool-free operation. KS60-M12-SS is manufactured by Otto Ganter, inventoried by Ruland, and RoHS3 compliant.
