MT16/16-CC90S-AN

Ruland T-Connector Mini-Clamp With Stud, Thru Hole 16mm, Stud Diameter 16mm, Stud Length 24mm, Black Anodized Aluminum

Description

Ruland MT16/16-CC90S-AN is a 90 degree connector with stud with a thru hole for 16mm round tube, 16mm stud diameter, 24mm stud length, and 45.0mm body length. It is designed to fit on Ruland tubes and flange bolt bases that begin with MT16. MT16/16-CC90S-AN is aluminum with a black anodized finish and screws are 304 stainless steel for added corrosion resistance when compared to unplated types. This 90 degree connector clamp with stud is commonly used to support tubes for mounting sensors, screens, reflectors, plexiglass machine guards, and other industrial components. The thru hole allows designers flexibility to reposition the clamp or tube as needed. The stud allows for a more compact installation than other connectors which require the use of a second tube that is significantly longer than the stud. MT15:16:20-ALK-M6-25 adjustable clamping lever can be used in place of standard clamp hardware for rapid repositioning of the tube or connector without the need for tools. MT16/16-CC90S-AN is manufactured by Otto Ganter, inventoried by Ruland, and RoHS3 compliant.

Product Specifications

Thru Hole Diameter B	16 mm	**Thru Hole Tolerance**	+0.11/-0 mm
Bolt Length LB	24 mm	**Bolt Diameter DB**	16 mm
Body Length L1	45 mm	**Edge To Center L2**	20 mm
Screw To Edge LS	11 mm	**Hole Depth T**	16 mm
Width & Height W1	25 mm	**Clamp Screw CL**	M6
Set Screw SS	M6	**Weight (lbs)**	0.264600
Material Specification	Anodized Aluminum	**Manufacturer**	JW Winco/ Otto Ganter
UPC	634529231944	**Country of Origin**	Germany
Tariff Code	7609.00.0000	**UNSPC**	31162908
