Advanced patented technology

Powered by 3M Science, Command™ Products are designed, tested and proven to hold strongly and remove cleanly from a variety of indoor and outdoor surfaces. And we constantly innovate, most recently introducing a new patented adhesive that is designed for new stain-resistant, low VOC and deep base paints.

In-store execution

Planogram

Build a full assortment planogram organized as shown below. The Picture Hanging category should anchor either the left or right side of the POG. Other categories should be organized as shown. Small hooks should be on top with larger hooks on the bottom. See page 38 for the product listings shown here.

Cross merchandise

Offer shoppers appropriate hanging solutions based on where they are shopping in the store in two ways.

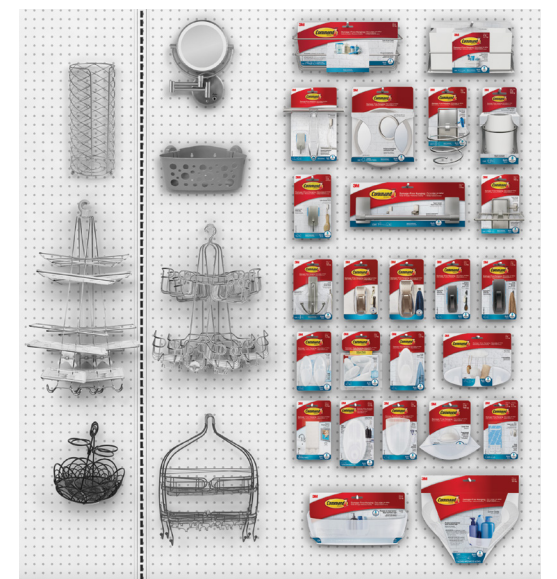

1: Permanent POG Adjacencies

Place relevant Command™ Damage-Free Hanging Solutions next to complementary items around the store. Keep Command™ Products blocked together for higher visibility. See page 39 for product listings of the examples shown here.

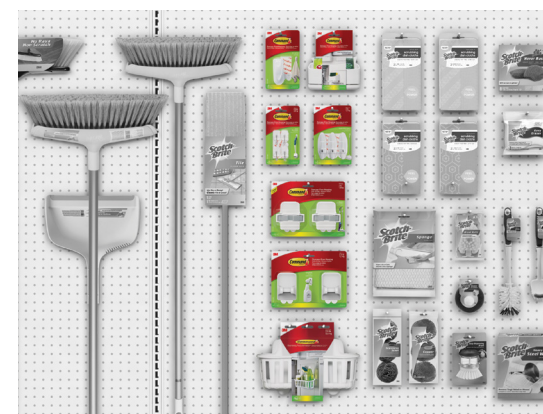

Frame Aisle

Bath Aisle

Cleaning Aisle

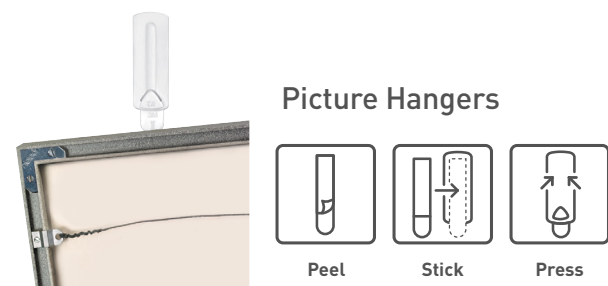

2: Everyday Displays and Clip Strips

If permanent placement isn't possible, use PDQs, side kicks or clip strips around the store. Some examples include 17PH2-SK next to the frames aisle, 17017AW-LC-PDQ next to patio string lights, 17PHS-PDQ in the checklane or 17007CS next to the brooms.

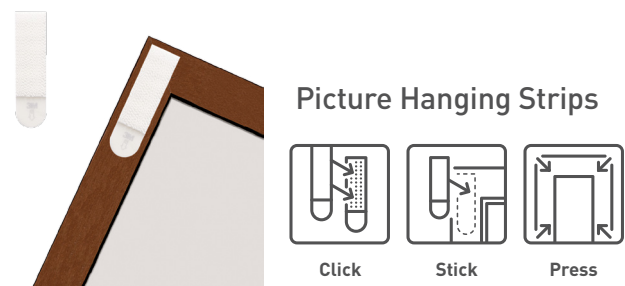

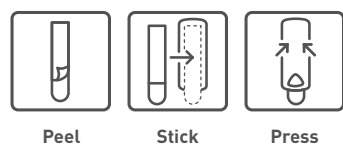

Picture Hanging

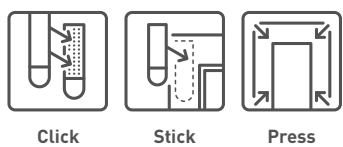

Decorate your world without damaging your walls. With Command™ Picture Hanging Products, you can fearlessly hang artwork, framed pictures and more – no tools or nails needed. And if you want to change things up, redecorating is easy, with clean removal and no regrets.
