Toolless Movable Waterfall Adapter Kit for Fiber Routing System, 130 mm

MODEL NUMBER: **SRFC4WTRFL**

Movable exit maintains a proper bend radius for fiber optic cables that are routed over the side of your fiber management system.

Features

High-Impact PVC Waterfall Helps You Create Custom Fiber Cable Routing Schemes
The SmartRack® SRFC4WTRFL connects to a straight channel section or other fitting in your fiber routing system to allow cabling to cascade over the side. It's movable, so your fiber cables can leave or enter where needed with a proper bend radius that protects against signal loss and breakage. Made from durable, lightweight PVC material, the waterfall assembles using the included hardware to help keep your fiber optic cable bundles neat and organized. Screws tighten by hand with no tools required to complete a professional, finished look in your data center, network closet or industrial space.

Highlights

- Allows you flexibility in creating your custom fiber optic cable routing system
